Our association with Daniel Boyer and B.D.R. Safety Consulting Inc. goes back to 2008 when we first used them for the delivery of the Alberta Professional Driver Improvement Course to our drivers. Since then, Dan has played an important role in assisting our company keep our fleet of drivers safe and compliant with the various rules and regulation that govern the trucking industry. Dan's approach to material delivery is to make it as easy as possible for the employees to understand the legislation and what is required of them on a daily basis. B.D.R. Safety Consulting Inc. has tailored their services to meet our individual needs each and every time we have used them for our driver improvement sessions. From Hours of Service, Defensive Driving Principles, Pre-Trip Inspections or overall Driver Education training, B.D.R. has always gone above and beyond our expectations.

Dan's professionalism, experience and no non-sense approach to training has assisted our company in achieving a higher level of safety proficiency within the trucking industry. The feedback we have received from our employees regarding the training provided has always been very positive.

B.D.R. has played a significant role in assisting our company to provide safe transportation services throughout Canada.

Sincerely,

Harmeet Shoker
