BDR Safety Consulting Inc. and Daniel Boyer

National Cartage Ltd. / MattJenn Enterprises Ltd. has been working with BDR Safety since 1997. Working closely together, BDR has developed all safety manuals and standards for both of our companies. Dan has provided one-on-one sessions and group training workshops as part of his services and is an excellent resource for our company particularly when we are faced with new driving and transport rules/regulations.

Dan takes the time to work with all team members to ensure we have the proper safety understandings before our drivers are out on the roads. He keeps us updated on any new safety changes that arise and makes himself available to answer all of our questions.

We strongly recommend BDR Safety Consulting.

John Yaehne
President National Cartage Ltd. / MattJenn Enterprises Ltd.
